

Introduction to Using the Microscope

Presented by Dory Stutman, DDS AAACD FICOI
at the Greater New York Dental Meeting

Improve Diagnostics, Increase Your Comfort and Grow Your Practice By Adding a Microscope - A Workshop for General Practitioners

Join Dory Stutman, DDS AAACD FICOI, for an introduction to microscope use in general practice.

This 3-credit CE course offers a view into a general practice using a microscope for all dental procedures and highlighting the benefits of high magnification.

In this session, you will:

- Learn how microscopy offers better diagnostic capabilities in real time.
- Understand how microscopes assist in multiple specialty procedures.
- Watch demonstrations for all quadrant areas of the mouth and get hands-on practice with using a microscope.

Wednesday, December 2, 2015
9 a.m. to 12 p.m.

Convention Hall, Level E, Room 1E01/02
570 Seventh Ave., Suite 800
New York, NY 10018

About Dory Stutman, DDS AAACD FICOI

A Long Island native, Dr. Dory Stutman earned his dental degree from the School of Graduate Dentistry at Case Western Reserve University. He completed his general practice residency at Metrohealth Medical Center in Cleveland, Ohio and the postgraduate program in Esthetic Dentistry at the University of Buffalo.

Dr. Stutman has been in private practice since 1991, and he opened the doors of South Shore Dental Care in 1995. He attends more than 100 hours of advanced dentistry seminars each year, with an emphasis on cosmetic dentistry, dental implants, and full mouth reconstruction to repair broken down smiles.

Dr. Stutman is a member of several professional organizations, including the Academy of Cosmetic Dentistry (AACD).
